

# Annote8 - iOS Versions

## Privacy Policy, Advertising & Terms of Use

Version 1.6 Last modified 31<sup>st</sup> May 2018

### End User Licence Agreement

The End User Licence Agreement is on the Annote8.com website and can be seen by clicking on the link: [EULA](#). By accepting this agreement you agree that you have read and accept the EULA.

Annote8 uses Apple Maps for geotagging and updating GPS metadata on your photos – by using this you are agreeing to be bound by Apple Maps [Terms of Use](#).

Annote8 uses the Google Drive REST API to interface with your Google Drive - by using Annote8 you are agreeing to be bound by Google's [Terms of Service](#) and [Google's Privacy Policy](#).

### Personal Information

We do not hold any information about you unless you have emailed us via our website.

- We do not collect any personal information or information about your photographs from your device via our app. Google Drive makes available to us the total number of requests to their services by all our users but this is aggregated data and completely anonymous.
- We do not collect any information about how you use our website.

If you email us then the only information that we will hold is that information that you have sent to us. The lawful justification for us holding this information is that it is a *“Legitimate Interest”* under the General Data Protection Regulation (GDPR):

- We may need to use that information to respond to or act on feedback, a query or a complaint.
- You have the right to ask us to delete that information.
- We will not release that information to a third party without your express consent unless Annote8 Ltd or substantially all of its assets are acquired by a third party in which case any personal data held will be one of the transferred assets. In this event we will use the latest email contact information we hold on you to notify you of this transfer.

Any purchases such as an upgrade to Annote8 Pro are handled entirely through the Apple App Store.

### Device Permissions

Annote8 requires permissions to run on you device and the following sections explains why they are needed; we do not use the granted device permissions for other purposes.

**Photos** – Annote8 views your photos (JPEG images) and allows you to edit the metadata.

**Network access** – Geotagging, Photo Library and Apple Maps require internet access for geo-location.
